

Plan a sports trip.

An activity for up to 6 students

Kia ora!

Your challenge is to plan a sports trip somewhere in New Zealand for a group of up to 6 students and at least 1 adult. You have a maximum budget of \$5,000 for your trip.

STEP 1: BRAINSTORM

Get together as a group and brainstorm ideas for your sports trip. Where would you go and why? When would you go? Who would be travelling in your group?

Once you have decided on your idea, review the planning considerations (right) to help you get started with planning your trip.

STEP 2: GET PLANNING!

Start researching the expenses you'll need to pay for your trip. To help your money go further, check if shopping around could reduce some of your costs.

See our handy budgeting tips for more ideas on how to calculate your expenses, and save some money.

STEP 3: CREATE YOUR PLAN

Complete tasks 1-3 on the following pages to show us your plan. You'll need to tell us about your sports trip, explain how you've budgeted for it, and show us your itemised budget.

TIP: To really catch our judges' attention, show us your creativity and bring your idea to life. You could create a video pitch, or make a 'vision board' using images - it's up to you!

STEP 4: SUBMIT YOUR PLAN

Ask your teacher to submit your plan at sortedinschools.org.nz/moneyjam for the chance to win the sports trip you've created, plus spot prizes of \$500 Rockshop and Rebel Sport vouchers for your school.

Planning considerations

- Transport to your destination e.g. airfares
- Airport transfers (if applicable)
- Accommodation
- Local transport at your destination
- Tickets or entry fees
- Meals
- Local activities

Budgeting tips

- Work out how many nights and days will you be away. You'll need to know this to work out your accommodation, food and transport costs.
- Check different transport options from your town to your destination.
- Flying to your destination? You will need to purchase return airfares for every person in your group. Consider sharing bags to save money.
- Shop around for accommodation options to get the best deal. There must be sleeping spaces for up to six students and at least one adult.
- **Food:** Count the number of meals you'll need and decide on some food options. Allocate an amount per meal each day and multiply by the number of people in your group.
- **Transport:** Use public transport, where possible, to save some money.

Your sports trip plan.

1 Tell us about your sports trip

Describe the sports trip you have planned. Tell us why this trip is important to you and why you think your group deserves to win. (200 words)

2 Explain how you've budgeted for your trip

How did you make sure you had enough money to do the things you want to do? What alternatives did you consider? What choices did you make to save money? (300 words)
